**SECOND INFORMATION DISCLOSURE STATEMENT**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

Pursuant to 37 CFR §1.56 and in accordance with 37 CFR §§1.97-1.98, information relating to the above-identified application is hereby disclosed. Submission of this statement is not to be construed as an admission that any of the documents submitted herewith are "material" to the examination of this application or the patentability of the invention, as the term "material" is defined in 37 CFR §1.56(b), nor as any admission that the documents submitted herewith even qualify as prior art references with respect to the above-referenced patent application.

In accordance with §1.97(b), since this Information Disclosure Statement is being filed either within three months of the filing date of the above-identified application, within three months of the date of entry into the national stage of the above identified application as set forth in §1.491, or before the mailing date of a first Office Action on the merits of the above-identified application, no additional fee is required.

A copy of United States patent reference listed on the attached Form PTO-1449 is not enclosed herewith pursuant to 69 FR 56542, Sept. 21, 2004.

Copies of all of the foreign patent reference documents cited on the enclosed PTO-1449 form are enclosed.

In accordance with the requirements 37 CFR 1.98(a)(3)(i) undersigned counsel for the applicant, believing that he is most knowledgeable about the content of the information, of each publication submitted herewith that is not of the English, supplies the following concise explanation of the understood relevance of the non-English language publications to the patentability of the invention which is the subject of the above-referenced pending United States patent application.

French patent publication 2,764,865 appears to disclosure a planar sheet or blank having lines of scoring or weakening along which portions of the sheet or blank may be bent to form a pallet having a planar upper surface supported by parallel of pipe head-configured feet having open interiors which are accessible via aperture in the planar upper surface.

French patent publication 2,765,193 appears to disclose a pallet formed from an aperture planar sheet and the plurality of planar sheets each having scored or weakening lines along which portions of the sheet may be bent to form a support leg for

the pallet, with the support legs having elongated portions adapted to extend through first ones of the apertures, fold and extend in a reverse direction through adjacent second ones of the apertures and then grippingly engage another portion of the support leg thereby to fixedly to connect the support leg to the pallet.

To the extent there is any fee required in connection with the receipt, acceptance and/or consideration of this paper and/or any accompanying papers submitted herewith, please charge all such fees to Deposit Account 50-1943.

Respectfully submitted,

Date: 3 November 2006
